

## EXTRA STROKE VARIETY

Ai Li-Shan

There is a most interesting variety that is found on the 4c value of the Japanese Lithographed issue, Scott 89, SG 99. It consists of an extra character on the upper right Chinese character “Ssu” for “4”. I found this variety many years ago, but have been unable to determine if it is constant or if it has previously been reported. If you have similar copy, please contact the editor if you have any information..
